DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see amendment, filed 25 February 2005, with respect to the provisional double patenting rejection have been fully considered and are persuasive.

Allowable Subject Matter

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or fairly suggest a combination digital camera and swipe scanner, wherein the digital camera and swipe scanner remain stationary relative to one another while the swipe scanner moves relative to a medium to be imaged as claimed. While combination camera/scanners are known in the art (e.g. Fishbine), the combination as claimed is not. The examiner notes that the closest available prior art, Nay et al., is commonly assigned and therefore does not qualify under 35 USC §103(c).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
